

Single At The Same Time

Jake Worthington

If we're ever single at the same time
Don't call me a friend
Just call me sometime
Don't think I ain't got the same thing on my mind
If we're ever single at the same time

I'll take you huntin', fishin', sittin' down by the lake
Or we'll go dancin', drinkin'
Honky tonk the night away
Baby don't take this thing too wrong
I'm just saying what I think is going on

If we're ever single at the same time
Don't call me a friend
Just call me sometime
Don't think I ain't got the same thing on my mind
If we're ever single at the same time

I may be crazy, hell maybe
We're thinkin' the same way
Forgetting lonely is only
A few numbers away

If our old flames ain't burning strong
Oh maybe we can kindle up a fire of our own

If we're ever single at the same time
Don't call me a friend
Just call me sometime
Don't think I ain't got the same thing on my mind
If we're ever single at the same time

Oh if we're ever single at the same time
