

# All Or Nothing

Jamala

Why I love you?  
Why I pretend it's easy?  
When our love  
Like song without a melody  
I'll be with you  
I'll share my love and sorrows  
So will you turn your back on me?

All or nothing  
If you really loving me so tenderly, don't go away  
Love or leave  
All in your hands, our love falls to pieces  
Set me free  
All or nothing  
If you really loving me so tenderly, don't go away  
All or nothing, nothing at all

Why can't you see  
I'm willing to be part of you  
I'm not at ease  
If you still hold her in your dreams  
I'd rather be  
Alone than have you shared  
It's time to choose priorities

All or nothing  
If you really loving me so tenderly, don't go away  
Love or leave  
All in your hands, our love falls to pieces  
Set me free  
All or nothing  
If you really loving me so tenderly, don't go away  
All or nothing, nothing at all

Meeting you was fate  
Becoming your friend was my choice  
But falling in love with you was beyond of my control

All or nothing  
If you really loving me so tenderly, don't go away  
Love or leave  
All in your hands, our love falls to pieces  
Set me free  
All or nothing  
If you really loving me so tenderly, don't go away  
All or nothing, nothing at all

All or nothing  
If you really loving me so tenderly, don't go away  
Love or leave  
All in your hands, our love falls to pieces  
Set me free  
All or nothing  
If you really loving me so tenderly, don't go away  
All or nothing, nothing at all
