

My Lover

Jamala

Take your guitar and pull the strings
Tell the story of your heart
The music starts
You spread your wings
The stage is your sky
Oh-oh
Take your guitar and pull the strings
Tell the story of the greatest love
I feel your vibes and my soul sings
The spotlight is your sun

My lover, your face is on the cover
My lover, here I am
My lover, I'm staying undercover
You don't know who I am...
My lover, your face is on the cover
My lover, here I am
My lover, I'm staying undercover
You don't know who I am...
You don't know...
You don't know me at all

Take your guitar and play some blues
Let the sound tell the story of all hearts
The rhythm goes on, the beat it has
I'm calling you "my love" in my dreams...
Wish you were mine. Please tell me how
Can I get you into my life? Begging you
The rhythm goes on

Oh wait, just now. You noticed me? Hah-ah

My lover, your face is on the cover
My lover, here I am!
My lover, I'm staying undercover
You don't know who I am...
My lover, your face is on the cover
My lover, here I am!
My lover, I'm staying undercover
You don't know who I am...

You don't know me
You don't know me
You don't know me at all
You don't know me
You don't know me
You don't know me at all

I'm just a shadow in the crowd
With your CD in my hands
Oh, I'm just a shadow in the crowd
Look at me

The stage is your sky
The spotlight is your sun
The music goes on
You spread your wings

I spread my wings

Woohoo!

My lover, your face is on the cover

My lover, here I am!

My lover, I'm staying undercover

You don't know who I am

My lover, your face is on the cover

My lover, here I am!

My lover, I'm staying undercover

You don't know who I am...
