

Sister's Lullaby

Jamala

This night, tender and calm
Close your eyes, time to dream
Sleep tight under the moon
In a silvery gleam

No regrets and no more sorrows
Your philosophy is right
No regrets and no more sorrows
Nothing is black and white, alright

I love you my sister
More than true love
I love you my sister
More than the sky above
I love you my sister

I know you're better than me
You are one of a kind, for sure
I grow just looking at you
All the troubles behind

No more wars and no more quarrels
And the world is in peace, peace of mind
No more wars and no more quarrels
Every soul believes in a will supreme

I love you my sister
More than true love
I love you my sister
More than the sky above

I love you my sister
Like our mother's touch
I love you my sister
Giving me so much

I love you my sister (Sister)
I love you my sister
I love you my sister (Sister)

Ooh... sister
Ooh... sister
Ooh... sister

Я тобі віддам що маю
(Ooh... sister)
Ооо, так люблю
Що як схочеш
(Ooh... sister)
Буду старшою сестрою
Оооууу, знай
(Ooh... sister)
Що я завжди з тобою
