

# Smile

Jamala

When alone you go to a brand new place  
When you leave where you belong  
Don't forget to put on a smiling face  
And you'll feel so much at home

You can go to Moscow  
You can go to Oslo  
It's no matter where you are  
Shorten distance, baby  
And you'll feel much better  
For you know that love can start

With a smile... Smile

When you meet a guy who gets you high  
Really gonna lose your mind  
Dunno what to say, you feel so shy  
Be yourself and give a smile

You can meet Mohammed  
You can meet Matteo  
Who will open up your heart  
Shorten distance, baby  
And you'll feel much better  
For you know that love can start

With a smile... Smile
