

Take Me To A Place

Jamala

Take me to a place
Where there's no war and crime
And no more despicable things
Take me to a place
Where people aren't fighting
Take me to a place
Where we are free to live our lives
Holding onto hope
Hope for the future

Ohh, give me love and let the ocean
Let it wash away our tears
Make this world a better place, ohh
Give me love and let the mountains rise above the pain and fear
Heal our wounds with every stone, ohh
Give me love
Oh, to be close to you forever, ohh
Give me love
And say no to war

Take me to a place
Where there are no rules that divide
Where I can see who I want
With no fear of fleeing
Take me to a place
That I can call my home
Take me to that place
I'm ready to fight for it

Ohh, give me love and let the ocean
Let it wash away our tears
Make this world a better place, ohh
Give me love and let the mountains rise above the pain and fear
Heal our wounds with every stone, ohh
Give me love
Oh, to be close to you forever, ohh
Give me love
And say no to war
