

# Thank You

Jamala

God, I'm losing my way  
Need a light  
Guiding light

Darkness eating my day  
But the light  
It will shine, I give hope  
I'm so grateful to be  
Got to be brave  
Keeping my faith, aha  
I know I hold the key  
And I say, pray

Thank you, I wanna thank you  
For your kind and caring love  
Thank you, I wanna thank you  
For the smiles and sparks of your light  
Thank you, I wanna thank you  
For the happy days of my life  
Thank you, I want to thank you

Hearts turn into stone  
When they lie  
Just tell me why, just tell me  
Yes, I might stay alone  
But tonight  
Won't go with the stream, no  
Though it's hard to resist  
Got to be brave  
Keeping my faith, aha  
I know we will be kissed  
By the light, light

Thank you, I wanna thank you  
For your kind and caring love  
Thank you, I wanna thank you  
For the smiles and sparks of your light  
Thank you, I wanna thank you  
For the happy days of my life  
Thank you, I wanna thank you

Thank you, thank you, thank you
