

# Watch Over Me

Jamala

I'm so glad I found you  
It's a loving so complete  
No more walls around me  
Open space to help me  
Help me please

Days are long without you  
My mind's taking over me  
I am counting on you  
Baby please watch over  
Baby please

Watch over me  
Baby please watch over me  
Watch over me  
Baby please watch over me

Watch over me  
Baby please watch over me  
Watch over me  
Baby please watch over me

Your heart's beating for me  
Hear your calling on repeat (on repeat)  
Feel your need to cool me  
Now I see  
Baby please

Watch over me  
Baby please watch over me  
Watch over me  
Baby please watch over me

Watch over me  
Baby please watch over me  
Watch over me  
Baby please watch over me

Good things like heart of me  
Good things like heart of me  
Good things like heart of me

Good things like heart of me  
Good things like heart of me  
Good things like heart of me

Good things like heart of me  
Good things like heart of me  
Good things like heart of me

Good things like heart of me
