

# Broken Hearted

James Arthur

Well it started at a party  
I never knew your name  
You never knew mine either  
But there was something about your face  
And you decided to come over  
And I think it started there  
You said "I really like you"  
And there was something in the air  
And then the party ended  
And we were all alone  
We lay there talking for hours  
And then I walked you home  
Then you kissed me in the garden  
I picked you out a rose  
You said "I think I love you"  
That's when my body froze  
And I said

"Never leave me broken hearted  
Baby I'm not strong enough  
Don't ever please don't ever, ever let me go"

You said "baby I won't" [X2]

But today you acted different  
I asked if you were alright  
You said "yeah trust me I'm okay"  
Then you put your lips on mine  
That's when I realised  
Your eyes are full of lies  
You would have fucked me for the story  
You wanna take me for the ride

You said "baby I won't" [X7]  
You said "baby, baby I won't"

You said "baby I won't" [X3]
