

# Emergency

James Arthur

I've been in this place since they were seen  
As they struck, the men sleep next to me  
I am closer to the axe 'cause they're reflecting me  
I'm a patient and I'm paralyzed  
Scared they'd tell me I just can't suffice  
Oh, they cutting me, I internalize, oh, no

See, this is emergency  
Nobody's helping me  
Somebody get this out of my mind  
There's just no urgency  
And I'm in agony  
Oh, I guess no one listening

But then a hand reach out, told me I was next  
Told me I was found and I feel so blessed  
And now my heart beats again, my heart beats again  
Oh, my heart beats again, my heart beats again  
Oh, my heart beats again, my heart beats again

And my girl keep saying that I'm paranoid  
And it's something that I can avoid  
I can practice till I find my voice oh, yeah

Oh, this is emergency  
Nobody's helping me  
Somebody get this out of my mind  
It's such an urgency  
To keep on hating me  
Oh, is anybody listening?

Then a voice came down, told me I was next  
Told me I was found and I feel so blessed  
And now my heart beats again, my heart beats again  
Oh, my heart beats again, my heart beats again  
Oh, my heart beats again, my heart beats again

Oh, this is emergency  
Nobody's helping me  
Somebody get this out of my mind  
It's just no urgency  
And I'm in agony  
Oh, I guess no one listening

But then a hand reach out, told me I was next  
Told me I was found and I feel so blessed  
And now my heart beats again, my heart beats again  
Oh, my heart beats again, my heart beats again  
Oh, my heart beats again, my heart beats again
