

Glorious

James Arthur

I don't like the way the world is
Everybody's nervous, tryna find a purpose
Everybody's hurting, I just draw the curtains
Black it out 'cause

Everything is so loud, even in a ghost town
This is our home now
Deafened by the silence, living with the violence
Feels like there's just

Nowhere to run, nowhere to lie
No way to live, no way to die
I wanna pray, I wanna cry
But I just realized that there's

Only us, only you, only me, only love
And it's glorious, glorious, glorious
Oh, it's glorious, it's glorious
Feels like there's just

Nowhere to run, nowhere to lie
No way to live, no way to die
I wanna pray, I wanna cry
But I just realized that there's

Only us, only you, only me, only love
And it's glorious, glorious, glorious

Yeah, it's only us, only you, only me, only love
And it's glorious, glorious, glorious
Oh, it's glorious, oh, it's glorious

I don't like the way the world is
Everybody's nervous, tryna find a purpose
I just draw the curtains, 'cause I just realized that there's

Only us, only you, only me, only love
And it's glorious, glorious, glorious
Yeah, it's only us, only you, only me, only love
And it's glorious, glorious, glorious

It's only us, only me, only you, only love
And it's glorious, glorious, glorious
It's glorious, yeah, it's glorious, ooh...
It's glorious, mmm...
