

Hold On

James Arthur

Empty glances, and no romance
conversation only hi
You know my ways and how to play me
I am just your habit for killing time

And I know it's all wrong, but I just don't feel strong
So I keep holding on, and I ask you, I ask you please to...

Hold me before you go
We don't hold each other anymore
And kiss me like you miss me
'Cause it feels like we're just, feels like we're holding on

We only talk when things go wrong
We never seem to have much fun
Your life is always on the run away from me
I try to fix it make it right
But you feel cold in bed at night
When I hold you close up tight
I still miss you

And I know it's all wrong, but I just don't feel strong
So I keep holding on, and I ask you, I ask you please just-

Hold me before you go
We don't hold each other anymore
And kiss me like you miss me
'Cause it feels like we're just, feels like we're holding on

There was a time when our love it was so sweet
And nothing stood between us and the world seems so complete
And now it feels like there's no earth beneath my feet
And I 'm falling into darkness and it's you I need to see

Hold me before you go
we don't hold each other anymore
And kiss me like you miss me
'Cause it feels like we're just, feels like we're holding on
