

It's Not Over

James Arthur

It's you mystified
The way you move, the way you move
You still break my stride
I could die in those eyes, I could die in those eyes

And we know where you'll be at the end of the night
Yeah we know, we know, we know...

It's not over, it's not over, eh eh eh
It's not over, it's not over, eh eh eh
Is there anything that I can do to put yourself in my shoes..?
Would you take me back?

Income parables
Your love in kind I'm in time
Closer chemistry
Has got you next to me and where else would I be hey no no

And we know where you'll be at the end of the night
Yeah we know, we know, we know...

It's not over, it's not over, eh eh eh
It's not over, its not over, eh eh eh
Is there anything that I can do to put yourself in my shoes..?
Would you take me back?
