

Let Me Win It

James Arthur

Write it on my sheets every night in my sleep so that I can stop
chewing on my tongue every day of the week, yesterday on repeat
I don't wanna watch this again.

I smoke to forget all the things I regret all the promises I made
I didn't do what I said now I'm sitting in a bed that she made
but you think that I should lie down,
But I don't wanna lie down,
No I don't wanna lie down.

Cause when I think that love will get me through this, I run away;
it's a little too perfect.

I get high and say things like I love you babe.
When I come fine, I'll find a way out there, I get high cause I
suffocate down there.
If you're right, and this life really is just a game;
I wanna win it, let me win it, let me win it this time [x2]
Whoa.

I'm sick of looking down in my face I wish that I could shout down
down put it in his place wish that I could change my mind as
we raised all the brain that I did to be fit hoping that I would
never see the day that I was called pea brain, but only on my own,
so forgive me if I let it ring when you call me up on the telephone.

Cause when I think that love will get me through this, I run away;
it's a little too perfect.

I get high and say things like I love you babe.
If I come fine, I'll find a way out there, I get high cause I
suffocate down there.
If you're right and this life really is just a game;
I wanna win it, let me win it, let me win it this time [x2]
Whoa.
I wanna win it, let me win it, let me win it this time [x2]
Whoa
