

Everybody Needs Someone

James Bay

We're staying up
We're gonna watch the sun come out
Everyone's here
There's silver slipping through the clouds
I pull this moment close
To stop me running out of hope

I'm holding on to patience undefined
We're a world of strangers chasing signs
Hear this complicated heart of mine

Oh, all I want
Is someone when the night is long
Half a lonely soul to make me whole
'Cause everybody needs someone

That's all it takes
A simple little twist of fate
A little spark
Some strength to keep your heart from
Breaking when you get so close
'Cause breaking comes and breaking goes

I'm holding onto patience, losing time
We're a world of strangers chasing signs
Hear this complicated heart of mine, oh, oh

Oh, all I want
Is someone when the night is long
Half a lonely soul to make me whole
'Cause everybody needs someone
Oh, all I want
Is someone when the crowd is gone
To see that I'm alone
To take me home
'Cause everybody needs someone

Yeah, we all need somebody
Yeah, I've got you if you've got me
Yeah, we all need somebody
Yeah, I've got you if you've got me
Yeah, we all need somebody

All I want
Is someone when the night is long
Half a lonely soul to make me whole
'Cause everybody needs someone

Oh, all I want
Is someone when the crowd is gone
To see that I'm alone
To take me home
'Cause everybody needs someone

All I want
Is someone when the night is long
Half a lonely soul to make me whole

'Cause everybody needs someone
We all need someone
