

Fade Out

James Bay

Tell me what this is for you
'Cause you only text me after 2
I wanna just be done with you
But I call you back 'cause I'm a fool
Come get me when your promises come true
Until then I'll keep driving out to you

You say nothing all night
I'm back don't lie
All night, all night
You give me nothing, action
Tell your friends I'm
All night, all night
Then we get drunk and repeat

If I got a little higher, every time our plans fell through
I could touch the moon
You try so hard to play this bullshit game
One night you even strayed, forgot my name

You say nothing all night
I'm back don't lie
All night, all night
You give me nothing, action
Tell your friends I'm
All night, all night
Then we get drunk and repeat

You only love me in the fade out
You only call me when no one's around
You only want me when the lights are down
You only love me in the fade out
You only love me in the fade out
You only call me when no one's around
You only want me when the lights are down
You only love me in the fade out

You say nothing all night
I'm back don't lie
All night, all night
You give me nothing, action
Tell your friends I'm
All night, all night
Then we get drunk and repeat

You only love me in the fade out
You only call me when no one's around
You only want me when the lights are down
You only love me in the fade out
You only love me in the fade out
You only call me when no one's around
You only want me when the lights are down
You only love me in the fade out

It's happened again, it's happened again, it's happened again
I let you play me
I let you play me out

It's happened again, it's happened again, it's happened again
I let you play me
I let you fade me out

You only love me in the fade out
You only call me when no one's around
You only want me when the lights are down
You only love me in the fade out
You only love me in the fade out
You only call me when no one's around
You only want me when the lights are down
You only love me in the fade out
