

# Speed Limit

James Bay

I broke the speed limit to get to you  
I took a road where there was no road  
Lost my keys and common sense  
Jumped the gun to jump the fence  
Just to find you gone

I turned the lights off in the kitchen  
I took the needle out the groove  
Dropped the roses in the sink  
Woke up cold and on the brink  
Just to find you gone

Nobody told us  
This weight on our shoulders  
Would keep us apart  
From the morning through the dark  
If love is a door  
That we walk through together  
Then how come we can't find the key?

I broke the speed limit to get to you  
I cut a valley through the rain  
Held a vigil at the bar  
Little candle in a jar  
Just to find you gone

Nobody told us  
This weight on our shoulders  
Would keep us apart  
From the morning through the dark  
If love is a door  
That we walk through together  
Then how come we can't find the key?

Nobody told us  
This weight on our shoulders  
Would keep us apart  
From the morning through the dark  
If love is a door  
That we walk through together  
Then how come we can't find the key?

I broke the speed limit to get to you  
I took a road where there was no road  
We don't ever get it right  
Couple sailboats in the night  
Drifting all alone

All the places that we went  
I went back to them again  
Just find you gone
