

## Don't Miss It

James Blake

The world has shut me out  
If I give everything I'll lose everything  
Everything is about me  
I am the most important thing  
And you really haven't thought all those cyclical thoughts for a while?  
e?

And as it keeps going  
I could never be involved  
I could never really see in real time  
I could never be involved  
I could avoid real time  
I could ignore my busy mind  
I could avoid contact with eyes  
Avoid going outside  
Avoid wasting my life  
Avoid 20 20 sight  
Avoid standing in line  
Avoid the 405  
Avoid coming to life  
I could say anything I like  
Switch off whenever I like  
Sleep whenever I like  
I could leave in the middle of the night

But I'd miss it  
Don't miss it  
Don't miss it like I did

And as it keeps going  
If there's no need for the perfect image  
And nothing seems that wrong  
Don't miss it  
When you know there's a better conversation waiting for you at home  
And as it keeps on going  
You forget whether it was the beginning or end  
When you can't believe your luck  
You're with your friend  
You get to hang out with your favourite person everyday  
When the dull pain goes away  
Don't miss it  
When you stop being a ghost in a shell  
And everybody keeps saying you look well  
Don't miss it  
Like I did  
Don't miss it like I did
