James Blake

```
My brother and my sister don't speak to me
But I don't blame them
But I don't blame them
My brother and my sister don't speak to me
But I don't blame them
But I don't blame them
My brother and my sister don't speak to me
But I don't blame them
But I don't blame them
My brother and my sister don't speak to me
But I don't blame them
But I don't blame them
My brother and my sister don't speak to me
But I don't blame them
But I don't blame them
My brother and my sister don't speak to me
But I don't blame them
My brother and my sister don't speak to me
But I don't blame them
But I don't blame them
But I don't blame them
My brother and my sister don't speak to me
But I don't blame them
But I don't blame them
My brother and my sister don't speak to me
But I don't blame them
(But I don't blame them)
But I don't blame them
(But I don't blame them)
But I don't blame them
(But I don't blame them)
But I don't blame them
(But I don't blame them)
(But I don't blame them, but I don't blame them)
But I don't blame them
(But I don't blame them)
But I don't blame them
(But I don't blame them)
But I don't blame them
(But I don't blame them)
But I don't blame them
(But I don't blame them)
But I don't blame them
But I don't blame them
