

## Meet You in the Maze

James Blake

Every friend in need, every memory  
It's me who makes the peace in me  
All I wanna sleep with, see  
It's me that makes the peace in me

From November through 'til now  
I hadn't felt an [?]  
Weakened, lost and [?]  
I woke you every now and then  
From one of those days  
I saw those Northern Lights  
I wanted you to see them  
I wonder if you'll see them  
Or if you'll travel long and find another  
Or if you'll find another

I'll meet you in the maze  
I'll meet you in the maze  
I'll meet you in the maze

All those songs that came before you  
All those songs that came before you  
All those songs that came before you  
They were once awaiting  
Music can't be everything  
Music can't be everything  
That's why I see you clear as air  
And it's not from my creating  
Music can't be everything  
All those songs that came before  
All those songs that came before you  
They were once awaiting  
Music can't be everything

I'll meet you in the maze  
I'll meet you in the maze

Before you know you've filled the page  
Before you fill the page  
They were once awaiting  
Music can't be everything
