

# Not Long Now

James Blake

Is threaten me  
'Cause I don't know who really  
Different that you probably  
Is threaten me  
'Cause I don't know who really  
Different that you probably  
Is threaten me  
'Cause I don't know who really  
Different that you probably

That you problem me  
But it's blue that I'm free to go go  
Places you couldn't stay alone  
Your energy in song

There's a road to love  
A cause  
There's a rod to love  
And love cost  
And love cost  
There's a road to love  
And love cost

'Cause I don't know who really  
I'm alone because, I'm alone because  
I don't know who really your problems  
I'm alone because the road to love

Alone because  
Alone because  
A road to love  
Alone because  
Alone because  
There's a road to love
