

# Our Love Comes Back

James Blake

You know how we've grown  
And how they catch our every turn

Everyone's arrived here  
I see the pictures of everyone  
And they truly got it

But it's your image burned into my mind  
And again I find  
That it's worth the pain  
And I love  
That it's right on time

[Chorus: 2x]

Our love comes back in the middle of the night  
Our love comes back in the middle of the night  
Our love comes back in the middle of the night
