

Show Me

James Blake

Show me
I wish you'd show me
Show me
I wish you'd show me

I heard you can show love
It's just not come out for me
I heard you had a sweet way
That I've yet to see

I wish you'd show me
I wish you'd show me

Show me
I wish you'd show me
Show me
I wish you'd show me

I heard you know it's over
But you didn't get that from me
I heard you're wearing new colors
Long as I ever seen on you

I wish you'd show me
I wish you'd show me

'Cause that was never stopping you before
And nothing I'd have loved more
Than seeing you at your best
And I waited till my eyes were sore
'Cause there's nothing I'd have wanted more
Than to see you at your best

Show me
I wish you'd show me
Show me
I wish you'd show me

I hope the person after
Gets all that you held from me
They get to be a fresh start
While I'm another causality

I wish you'd show me
I wish you'd show me
