## **Waves Know Shores**

## **James Blake**

And I waited some, and I waited some You wanna know me like waves know shores You wanna know me like waves know shores I'm waiting to see who's mind of gold Message after message Message after message Through your broken turn I hear someone Who hasn't found what changes them

You wanna know me like waves know shores Like I know my own self's goals Like I know my own self's goals Like I know my own self's goals Like I know, like I know

I suggest you love like love's no loss I suggest you love like love's no loss I suggest you love like love's no loss
