

Where's the Catch?

James Blake

(Goodbye, goodbye, goodbye...
Can't ne.. can't ne.. can't ne...
Can't nev.. can't nev.. can't nev...
Can't never, can't never, can't never...)

We delay the show, we kiss so long
We breathe through the nose till the breath is gone
And everything slows, everything's rose now
You use both hands, I use both hands
We'll meet in the middle, we meet in the sand
And everything's ghost, everything's ghost now
Every, everything's rose now

(Oh, right now) Where's the catch?
(Can't fool me) Where's the catch?
There must be, there must be a catch

Hey, alright, now this maybe a little bit heady
And, y'know, I hate heady-ass verses
I wrote this shit, so here we go
Yo

All my pessimistic keeps me in a cage (cage)
All my haters' twistin' keeps me spinnin' 'round for days (days)
Exorcism, pessimism has arisen
There's no reason, really treason to myself, so silly
So perfect, so perfect, so why do I look for curtains?
I'm certain but certainly, false alarm's alertin'
A burden and beautiful times, a garden snake (sss)
Won't bite me, but frightens me like I know I'm eight
I know I ain't, I know it, ayy
Harmony, harmony, how many, how many
Days of amazin' will it be before it phases?
And I say I told you so (told you so)
Summer bee, summer be buzzin'
Some will be hovering over nothin'
All of a sudden it's fall and it's over, though
Come with me, come with me, calming me down
Be chamomile, calamine lotion, count my motion
Hoppin' on the flow (yeah)
Tumbleweed, tumbleweed
Wanna leave before the avaricious take over the city
We build and discover gold
Alchemists make it silver before you know it
Negative nickels until it's void
Aluminum foil it back to soil, oy

Where's the catch?

But everything's rose, everything's rose
Everything's rose now
(Isn't it brighter?)
But everything's rose (Everything)
Everything's rose (Everything)
Everything's rose now
(Everything-thing)
Everything's rose (Everything-thing)

Everything's rose (Everything-thing)
Everything's rose now
Can you trust me?
But-but, every-everything-thing's rose
(Everything is rose)
Every-everything-thing's rose
(Everything is)
But-but, every-everything-thing's rose
(Everything's is rose)
Every-everything-thing's rose
(Now)
Every-everything-thing's rose
But-but, every-everything-thing's rose
(Right now)
Everything, everything
Everything, everything
(Right now)

(Right now) Where's the catch?
(Can't fool me) Where's the catch?
There must be, there must be a catch

(Right now)
