

# Goliath

James Brown

You many days on the moon  
Hidin' from humanity  
With the man

There's a giant on the loose  
Sends a shadow on the land  
He's gatherin' up the whole of New York City  
In the palm of his hand

He's got one foot in the west  
One foot in the east  
Watch out for that monster  
He's a cold corporate beast

Goliath, hey  
Will set you free  
To go crazy in the 20th Century  
Goliath  
Will set you free  
Goliath  
Take a long side  
Take that walk  
On the money side of the street  
Goliath  
Dancin' with the lead

The ground starts to shake  
When he starts walkin'  
And all the politician listen  
When his money start talkin'  
When he says stop, we stop  
Go, we go, dance, we dance  
All the way from London to Tokyo

When he says fast, go fast  
Slow, go slow, dance, you dance  
All the way from China to Mexico  
Do you hear me?

He's got the big reef far and wide  
He's to the sugar cane, acid rain  
He's got the hi-tech, the OPEC  
And the cold war

Maceo wind it up  
Maceo hit 'em where it hurts  
In the pocket - yeh  
The fat rat  
Reminds me of Tom and Jerry

Makes me feel insane  
And more than that  
Fallin' into ruin

Now stand back when you need me  
Let the children play  
God gave us the heart to make it right

And walk free in the light of the day

Goliath, ow  
Will set you free wow  
To go crazy in the 20th Century  
Say it now  
Goliath  
Take a long side  
Take that walk  
On the money side of the street  
Goliath  
Will set you free  
I want to know

When he says stop, we stop  
Go, we go, dance, we dance  
All the way from London to Tokyo  
Wait a minute  
If he says jump, you jump, fall, you fall  
Dance, you dance, all the way from kingdom come  
To kingdom home

Hey  
Goliath  
Will set you free  
Goliath  
You might as well walk  
'Cause I ain't doin' the talk  
Goliath  
I got so mad  
Goliath  
Stop him  
Stop him  
Goliath  
Stop him  
Stop him  
Goliath  
Stop him
