

Just Do It

James Brown

Come on, just do it, do it
'Cause I know it's gonna make you feel real good
Come on, just do it, do it
Do it till it feels alright

Come on, just do it, do it
I know it's gonna make you feel real good
Come on, just do it, do it
Come on now, let's do the do

Way to sing the song, I'm steady, ready to turn you on
Just to impress, party down, I don't take no mess
Swing to the limit then bring it back again
Move that hip and don't you slip
Come on, let's play the whip, now

Come on, just do it, do it
'Cause I know it's gonna make you feel real good
Come on, just do it, do it
Do it till it feels alright

Come on, just do it, do it
I know it's gonna make you feel real good
Come on, just do it, do it
Come on now, let's do, the do

Now when you hear my music
Hold that feet and don't you dare lose it
Right now go
Stomp to the rhythm, move with the flow

Surely it make you feel good
Come on, give it a try
Nothing to venture, nothing to gain
And that's the reason why you got to

Come on, just do it, do it
'Cause I know it's gonna make you feel real good
And I want to just do it, do it
Do it till it feels alright

Come on, just do it, do it
'Cause I know it's gonna make you feel real good
Come on, just do it, do it
Come on now, let's do the do

Come on, just do it, do it
Come on, just do it, do it
Come on, just do it, do it
Come on, just do it, do it

Come on, just do it, do it
Come on, just do it, do it

Shake it out, sin for your mind to know what it's about
Survival for the fittest in a race, make all swell
Throw your adrenaline fast and you best remember quick

'Cause if you don't then you won't know what you have missed

Come on, just do it, do it
'Cause I know it's gonna make you feel real good
And I want to just do it, do it
Do it till it feels alright

Come on, just do it, do it
'Cause I know it's gonna make you feel real good
Come on, just do it, do it
Come on now, let's do the do

Come on, just do it, do it
'Cause I know it's gonna make you feel real good
And I want to just do it, do it
Do it till it feels alright

Come on, just do it, do it
'Cause I know it's gonna make you feel real good
Come on, just do it, do it
Come on now, let's do the do

Come on, just do it, do it
'Cause I know it's gonna make you feel real good
And I want to just do it, do it
Do it till it feels alright

Come on, just do it, do it
'Cause I know it's gonna make you feel real good
Come on, just do it, do it
Come on now, let's do the do

Come on, just do it, do it
'Cause I know it's gonna make you feel real good
And I want to just do it, do it
Do it till it feels alright

Come on, just do it, do it
'Cause I know it's gonna make you feel real good
Come on, just do it, do it
Come on now, let's do the do
