

# Sexy, Sexy, Sexy

James Brown

Hey, yeah  
She's sexy sexy sexy  
She's sexy sexy sexy  
I love the few pals  
But the fellas whistle at my baby too loud  
Because she's just, she's just sexy sexy sexy, ha  
That's what she is now, uh, ooh-wee  
Sexy sexy sexy  
Hey

Can't let her name ring  
Because I know I got a thing  
Don't watch her legs, can't watch her dress  
You'll appreciate a sister than dig that mess  
She's just sexy sexy, ha, that's what she is now  
Sexy, hit me, hey, uh

Can't get enough  
That makes me rough  
Love me tender, good God  
I know I'm tough

She got stallion hips  
Got cheeks and lips  
You see, a dog don't want a bone, ha  
That's why he buries it  
Don't talk about a thing I don't know about  
But a right on stallion, that's what I got  
'Cause she's just sexy, sexy  
She's sexy sexy sexy, all right  
Now baby, bring your good thing home  
Now baby, bring your good thing home, all right

Soul sister, if you got a man, that need his job to be billed  
Don't waste your time, ha, bring it to a man that will  
If you a, sexy, sexy sexy sexy  
Only, only, only if you're sexy, sexy, sexy sexy sexy, all right  
Walk on with that soul power thigh  
With that shape that keep me sanctified  
Make me wanna spank, ha, oh Lord  
Make me wanna spank  
Be mellow and be sweet  
Forget about the dice, sit down and cheat  
Move the dead weight, you don't  
'Cause the more I get, the more I want  
Because she's, sexy, sexy sexy  
Sexy, sexy sexy  
Listen sister, if you got something to show let it show  
If you got something to move, let it move
