

Fever

James Durbin

I've got a cold and I've got a fever
Cold can be cured but this fever keeps on draggin' me down
Draggin' me down
Nothing's got the cure for my fever quite like you do

It's hotter than hell. Got me gettin' to believing
That you've got me prayin' I'm beggin' and pleading
Pull the alarm when my temperature rise
And I'll burn for the cure in your eyes

I've got a cold. Save me from fever
Medicinal drips at the tips of your fingers, child
It's draggin' me down oh oh oh oh oh oh
Nothing's got the cure for my fever quite like you do, yeah

No I can't kick the sickness. A life so unkind
The type of prescription that can't be prescribed
I guess I'm addicted and I'll never be fine
And I'll burn for the cure in your eyes

I've got a cold and I've got a fever
This cold can be cured but this fever keeps on draggin' me down
It's draggin' me down
You know nothing's got the cure for my fever
Nothing's got the cure for my fever
Nothing's got the cure for my fever
Quite like you
Quite like you
Nothing's got the cure for my fever
Quite like you do
