

Battle Is Over

James Fortune & FIYA

Before the smoke even clears
We see the light of the dawn
And we know that in Him we have overcome
Fighting all through the night
Ready for the end
We're refreshed all the while depending on Him
We pressing on and we know
That He will show himself strong
And put the enemy back where he belongs
Celebrate we've finally reached the end
Although the battle is not over we can stand shoulder to shoulder
And say

I've already won
I've already won
I've already won
The battle is over
So come on

I'm walking in the victory
So everybody get up on your feet and sing
I'm walking in the victory
So everybody get up and rejoice with me

Let all of Zion shout the victory
We were doubtful for a moment but now we can sing
The King of Glory strong and mighty in battle
He came through in the eleventh hour
So now we can stand and proclaim

I've already won
I've already won
I've already won
The battle is over
So come on

I'm walking in the victory
So everybody get up on your feet and sing
I'm walking in the victory
So everybody get up and rejoice with me

Halle
Halle

Hallelujah
Halle-lujah
Hallelujah

Hallelujah
Halle-lujah
Hallelujah

Hallelujah
