

# Committed

James Fortune & FIYA

You won't leave me to myself  
You're not that kind of god  
You have a different love that won't fail

It's a safe place I can run to  
You're committed  
I'm the one You refused to leave

You won't leave me  
Leave me alone  
You'll stay with me  
When all hope is gone  
Your grace will chase me down  
'Til I am found  
You are committed

You won't leave me to myself  
You're not that kind of god  
You have a different love that won't fail  
You will keep me in perfect peace  
You are a present help  
You have a different love that won't fail

It's a safe place I can run to  
You're committed  
To the ones who don't deserve it  
I'm the one You refused to leave  
You are committed to me  
There is no distance  
You won't leave  
You are committed to me

You won't leave me  
Leave me alone  
You'll stay with me  
When all hope is gone  
Your grace will chase me down  
'Til I am found  
You are committed  
You are committed  
You are committed

You are committed to me  
You will supply every need  
You're not the God who would leave me  
No weapon can hurt me  
All things will work for me  
You are committed to me

You won't leave me to myself  
You're not that kind of God  
You have a different love that won't fail
