

# God Can

James Fortune & FIYA

Raising that child all by yourself  
No family or friends are there to help  
All of the worries you can't find rest  
Now you're mad at the world But it's only a test  
Even your family can't feel your pain  
But if they could see your heart they'll know it's not a game  
For surely if He cares for the birds in the air  
He won't put more on you than you can bear  
God Can

Just in case you feel like there is no one who is on your side  
Remember you have Jesus, this battle is not yours to fight  
This pain you're feeling now is a part of Yahweh's plan for you  
No situation that my God can't fix for you  
God can, God can

I know that you are hurting  
Seems like the pain will never end  
But don't you worry, give God the glory  
Praise Him 'til you win, praise Him 'til you win

God can and He will [x6]

God can, can [repeat]

He can do it  
Just ask it  
Whatever you need from God  
Reach up and grab it  
Wipe your tears  
Don't you know  
No weapon formed against you  
Shall prosper no

Yes He can [repeat]
