

He Always Makes A Way

James Fortune & FIYA

I see you crying, I see you hurt,
I see you reach, I know you're worried
For all your struggles, and all your troubles,
Too much to handle, what do you do?
There's one thing that you must remember about my God
He always makes a way

I know the situations dim, and you can't see him
But, he always makes a way
You're not in this by yourself
When there's no one else
He always makes a way

I know you think about tomorrow
But don't forget about yesterday
He brought you through, he helped you make it
Through all the pain, he will come through
There's one thing that you must remember about my God
He always makes a way

I know the situations dim, and you can't see him
But, he always makes a way
You're not in this by yourself
When there's no one else
He always makes a way, makes a way, makes a way
He always makes a way, makes a way, makes a way
He always makes a way

He always makes a way, oh yes he will, he will make a way
Don't you lose the faith, just know today that he will
He always makes a way, he will make a way
Don't you lose the faith, just know today that he will
He always makes a way, he will make a way
Don't you give up now, just know somehow he will
He always makes a way, he will make a way
Don't you lose the faith just know today that he will
He always makes a way, he will make a way
Don't you give up now, just know somehow that he will
