

We Welcome

James Fortune & FIYA

We welcome Your presence now
So that we can feel Your warm embrace
So I can know that I am safe
In Your arms
So let Your love fall down tonight
So that someone can know
What true love's like
Let Your spirit fall down like rain
So that we can leave forever changed
Holy Spirit have Your way in this place

We welcome in Your presence, we welcome in You love
Oh 'tis so sweet to have You
Hold me when I feel so alone
We welcome in Your glory, we welcome in Your grace
For it's Your grace that brought us through
So we lift our hearts with praise to You

We welcome in Your power, we welcome in Your might
For when I could not take the pain
You came and wiped my tears away
We welcome in Your glory, we welcome in Your grace
For it's Your grace that brought us through
So we lift our hearts with praise to You

We welcome in Your presence
We welcome in Your love
We welcome in Your glory
We welcome in Your grace
We welcome in Your mercy
We welcome in Your presence
