

Between Us

James Hersey

Every time I look for you
It's different
Suddenly my problems are
In the distance
Everybody knows that I
Like to pretend that
Everything is perfect, like
Nothing ever happened

Between us
Can't believe that I let myself
Leave it all behind
This ain't what I dreamed of
Can't believe that I let myself
Get you off my mind
I'm off my mind

Don't talk about it
Don't talk about it
Won't give it up won't talk about it
I won't talk about it no...

But even if I tried
I know it's true
What a waste of time
The days go by
I think of you
I know you know that
It has to end
But nothing's perfect
So don't let it get

Between us
Can't believe that I let myself
Leave it all behind
This ain't what I dreamed of
Can't believe that I let myself
Get you off my mind
I'm off my mind

Don't talk about it
Don't talk about it
Won't give it up won't talk about it
I won't talk about it no...

I know you can give me
Everything I want
Because you'll always be
Everything I'm not
When I think about you
All our problems gone
Why the hell do I always
Let it get between us

Between us
Can't believe that I let myself
Leave it all behind

This ain't what I dreamed of
Can't believe that I let myself
Get you off my mind
I'm off my mind

Don't talk about it
Don't talk about it
Won't give it up won't talk about it
I won't talk about it no...
