

Keep It Even (Take 3)

James Hersey

(1, 2, 3)

Take your time, take your chances
On the only road you know
All the love you have collected
At the heart of your soul

Read the signs, seek the answers
Find the truth in all you know
Through your eyes let each word sweep out
From the heart of your soul

And I know now
Why you're down
You try so hard
To keep it even
To keep believing when nobody else cared
Oh no, nobody else cared

All the best friends and the lovers
In the world will never know
What it means to mend each broken scene
At the heart of your soul

And I know now
Why you're down
You try so hard
To keep it even
To keep believing when nobody else cared
Oh no, nobody else cared

Oh no, nobody else cared
