

Let It Shine

James Hersey

Stepping into the daylight
Tired of wasting my whole life
Take it back like it's all mine
Let it shine, let it shine
Wish we could've said goodbye
You were gone in just one night
Stepping into the daylight
Let it shine

Burned till you burned out
Turned up, turned on, then you turned me out
Can't see when you're locked out
Goddamn, never made it to the lockdown
Don't know why you did what you did
But now you're gone
And I'm still learning to live

Stepping into the daylight
Tired of wasting my whole life
Take it back like it's all mine
Let it shine, let it shine
Wish we could've said goodbye
You were gone in just one night
Stepping into the daylight
Let it shine, let it shine

Oh, let it shine, let it shine
Oh, let it shine

Now you're finally at peace, yeah you didn't wanna be here
Gotta learn to let you go
Yeah I'm gonna miss you here but I hope you
Find what you're looking for

Oh, let it shine, let it shine
Oh, let it shine

Stepping into the daylight
Tired of wasting my whole life
Take it back like it's all mine
Let it shine, let it shine
Wish we could've said goodbye
You were gone in just one night
Stepping into the daylight
Let it shine, let it shine

Oh, let it shine, let it shine, let it shine
Oh, let it shine, let it shine, let it shine
Oh, let it shine

Stepping into the daylight
We're stepping into the daylight
I'm stepping into the daylight, tired of wasting my whole life
Take it back like it's all mine
Let it shine
