

One Way

James Hersey

(Taking you one way
For breakfast in Rome, finally home)

Driving through the city, baby let's get lost
Never let the feeling fade away
Know that I've been giving you the best I've got
Say that you were giving me the same

Hard times and red wine and long nights alone
Tired of ordering takeout for one
Reruns of movies I already know
All I can think of is

Taking you one way
For breakfast in Rome, finally home
I'll show you the one place
Where I can let go

Where I can let go
Where I can let

Let me get you something while you sleep in long
I don't wanna miss another day
Find a secret place that we can call our home
Told you that you're gonna wanna stay

Hard times and red wine and long nights alone
Tired of ordering takeout for one
Reruns of movies I already know
All I can think of is

Taking you one way
For breakfast in Rome, finally home
I'll show you the one place
Where I can let go

Where I can let go
Where I can let go
Where I can let go

Taking you one way
For breakfast in Rome, finally home
I'll show you the one place
Where I can let go
