

So Close To Me (VIE)

James Hersey

When you just keep on looking
To get on with your way
It's hard to stop and listen
To the words you say
The ground is always shaking
When I get up on my feet
It's so hard to keep a distance
When you're just so close to me

Yes you are baby
You're just so close to me
Yes you are baby
You're just so close to me
Yes you are baby
You're just so close to me
Yes you are
You're just so close

When you just keep on living
And I've all but lost my way
It's hard to stop and listen
Not to point the blame
Cause when noone's there to catch you
But you thought you had to be
It's so hard to keep a distance
When you're just so close to me

Yes you are baby
You're just so close to me
Yes you are baby
You're just so close to me
Yes you are baby
You're just so close to me
Yes you are
You're just so close

Yes you are
You're just so close to me...
