

Tomorrow

James Hersey

When you gonna come, oh
I know you've got lots to do
But I've got nothing all summer
You can say it ain't chic
But you can stay in my home
Sleep 'til you don't need no more
And we can get stoned
And talk about tomorrow like it's here

We can make it work out if you try to hold on
We can write this story on our own out here
We can make this feel like it could never go wrong
If we can find a way back, just don't say that it's gone
Don't say that it's gone

Where you've been lately?
I see you've got [?]
Well, isn't that crazy?
Used to be just you and me
Right here in my home
Dance like we don't care no more
And we could get stoned
And dream about tomorrow like it's here

We can make it work out if you try to hold on
We can write this story on our own out here
We can make this feel like it could never go wrong
If we can find a way back, just don't say that it's gone
Don't say that it's gone

I swear that I'll [?]
If you don't stop changing your ways
If you come back this time
Oh baby, you better be sure we can be more

Cause we can make it work out if you try to hold on
We can write this story on our own out here
We can make this feel like it could never go wrong
If we can find a way back, just don't say that it's gone
We can make it work out if you try to hold on
We can write this story on our own out here
We can make this feel like it could never go wrong
If we can find a way back, just don't say that it's gone
Don't say that it's gone
