

Winter

James Iha

Love will carry me
Over land to the sea
Take me far away
To the home where i'll stay
I cared to follow
And through your eyes i will see
A place where there is light
And all the stars are out at night

And i'll come
Calling out your name
And i'll come
Calling out in vain
And i walk
No-one knows my name
And i'll come
Will you help me find my way

There's another way
If i leave you today
I'm down and i hurt
Am i hearing right
But i can't find you
If i fall away
In there i just ran away

And i'll come
Calling out your name
And i'll come
Calling out in vain
And i walk
No-one knows my name
And i'll come
If you help me find my way

If it's over
And the highest peak
I will come
If you cover me
I know i'll fail
I know i'm weak
But it's you again
Over and over i hear
Angels singing
Love
I dream at night about you
Yearning tides
Love the moon
Hold me in your morning light
And Jesus loves the best
I dreamed had found you
And yearning tides
Love the moon
Hold me in your
And Jesus loves
Lovers light
