

# Always

James Ingram

I want you always  
Ooh ooh ooh  
I want you always  
I want you always

People tell me you're not serious  
But it doesn't matter, I love you anyway  
Girl in my world there's just the two of us  
They find it hard to see that you're a part of me

And I want you always  
I can't remember loving  
Anyone like this  
Honey, you're the best thing  
Always  
I can't remember loving  
Anyone like this  
Honey, you're the best thing  
You're the best thing  
You're the best thing

They say I'm only living a fantasy, oh  
And my imagination takes control of me  
My heart needs you, like a flower needs the rain  
I still feels the same, honey, when I hear your name

And I want you always  
I can't remember loving  
Anyone like this  
Honey, you're the best thing  
Always  
I can't remember loving  
Anyone like this  
Honey, you're the best thing

Always and forever  
I want you day and night  
Heaven knows this love is so right  
Always and forever  
Oh, baby I want you  
Only I know what you've given me  
It will never grow old  
It's more, more, more precious than gold

Always  
Always

Lady, I need your love  
This ain't no sometime thing  
It's all I want you to know  
Girl, I get so excited  
finding it hard to hide it  
You got me going through the ceiling and I'm riding on the feeling  
And hey baby, I can't remember loving anyone like this  
Ooh, my oh my  
Girl, I need your love

Always  
I can't remember loving anyone like this  
Honey, you're the best thing  
I want you always  
I want you always
