

# It's Your Night

James Ingram

Turn down the lights, put on the music, ooh  
This situation calls for a little atmosphere  
Take my body, baby, come on and use it  
I wanna make it clear  
Darlin', that's why I brought it here

It's your night (here comes the night) oh  
And I'm gonna make it one you won't forget (your night)  
If you think you've been loved you ain't seen nothin' yet (tonight)

Tell me, do you want it  
Yes, I want it  
Darlin' All night  
Baby, if you want it  
Yes, I do  
Baby, then I promise you  
I'm gonna do ya right

You always seem to be the giver, ooh  
What you've been givin' has been the best, ooh  
And now that it's my turn to deliver  
Just put me to the test  
Darlin', and tell me your request

It's your night (here comes the night) oh  
And I'm gonna make it one you won't forget (your night)  
If you think you've been loved you ain't seen nothin' yet (tonight)

Tell me, do you want it  
Yes, I want it  
Darlin' all night  
Baby, if you want it  
Yes, I do  
Baby, then I promise you  
I'm gonna do ya right

It's your night (here comes the night) oh  
Baby, now it's here and it belongs to you (your night)  
I'm into doin' anything you want to do (tonight)

It's your night (here comes the night) oh  
And I'm gonna make it one you won't forget (your night)  
If you think you've been loved you ain't seen nothin' yet (tonight)... fade
