

# Let Me Love You This Way

James Ingram

Tonight I look at you and you're so beautiful  
There's so many things I want to say  
Wish I could show you now, how far I'd go  
Just to prove my love will never fade  
I'd steal the stars above  
But that would still not be enough  
Of what I need to let you know

Let me love you this way  
By never letting go until my dying day  
Let me love you this way  
By staying near your side always

And as the years go by you'll know in your heart  
Girl, this feeling that I have is real  
And if you'd asked me for the whole wide world  
I would get it, borrow, beg or steal  
But would that make you see  
Just how much your love really means  
Would it truly let you know

Let me love you this way  
By never letting go until my dying day  
Let me love you this way  
By staying near your side always

Girl, I wanna be  
More than a man  
Who loves you for just one night  
Oh let me show you that's not the way I am

Oh darlin' let me love you girl  
I'll never let you go  
Never, never, never never baby

Let me love you this way  
By never letting go until my dying day  
Let me love you this way  
By staying near your side always

Let me love you this way  
By never letting go  
Never never 'til the day I die  
Let me love you this way  
By staying near your side always
