

# Remember The Dream

James Ingram

You have a choice  
Your heart will know  
You gotta look back sometime  
To know where to go

You have a voice  
Long as you live  
It's never too small  
Whatever you got to give

When your life is low (hold on)  
And you want to let go (be strong - hold on)

Remember the dream we had  
When there was nothing else  
Remember the light that shines  
And find it in yourself  
Remember the dream is yours  
So let it guide your way  
And keep it alive with you each day

Don't ever say  
You just don't care  
the chances you take  
Will take you as far as you dare

Don't be afraid  
Hold your head high  
There's strength in your soul  
You never know till you try

When your life is low (hold on)  
And you want to let go (be strong -- hold on)

You're not alone .. somebody cares  
(Hold on ...be strong)  
When you're walkin' the road  
With those who been there  
(You're not alone)

Remember the dream is yours  
So let it guide your way  
And keep it alive with you each day.
