

Trust Me

James Ingram

I wanna tell ya
I meant each word
That I said baby, last night
So don't turn away when
Your heartbeat says you wanna stay
You thrill me
When you whisper gently
There's power in your every kiss
So take a chance on love
Ooh girl, it won't be long before
You will see you can

Trust me, my baby
Honey, I'll take care of your heart
You'll never be lonely
You're second to none
You're number one, baby, baby, baby
Trust me

Friends say I fall in love too fast
You see, like you I've been hurt before
But you look at me and time stands still
Nothing else means more, no
So hold me
We can ride on love's wings
Girl, take me there
All night long, baby
So take a chance on love
It can't be wrong
It won't be long before
You will see, baby

Trust me
You gotta trust me, I'll take care of your heart
You'll never be lonely
You won't be lonely, you're second to none
You're number one, baby, baby, baby
Trust me
Trust me
Oh darling, trust me
All you got to do is trust me

You're my pot of gold at the rainbow's end
I need you here, when the night closes in
You try to hide, but baby in your eyes
I can see your desire
Won't you trust me

Don't you know you can trust me (oh, James)
I'll take good care of your heart

Don't you know you can trust me, baby
I'll never, no I'll never let you down
(Trust me)
Put your heart in my hand
Try to understand
I won't hurt you, baby

(Trust me)
Trust me, I'm the one you can come to
(Trust me)
'Cause baby, you're the one
You know you are the one
(Trust me)
'Cause baby, you're the one
You know you are the one
(Trust me)
