

## GOT IT GOOD

James Johnston

I got a old house, little fixer up  
Pare of boots that were hand-me-downs  
Bald tyres and a little rust  
Still gets me into town

The grass might be greener and they might be right  
But bet the beers just as cold on both sides  
And if you're asking me  
I'm a lucky one

'Cause I got a good life, I'm doing all right  
A lot of love waiting for me back home  
I got a job that's payng the house off  
Couple of kids to keep me on my toes  
And it might not seem like much to some  
But I tell you now it's all that I want  
I wouldn't trade this life even if I could  
'Cause I got it good

(I got it, I got it good) Oh yeah  
I got it good (I got it, I got it good)

Bought a brand-new fishing boat  
Still can't see to reel em in  
There's a new joint on the main road  
I'm still ordering the same thing

'Cause everyone's looking for shined up and new  
But I'm gonna stick to my roots

'Cause I got a good life, I'm doing alright  
A lot of love waiting for me back home  
I got a job that's payng the house off  
Couple of kids to keep me on my toes  
And it might not seem like much to some  
But I tell you now it's all that I want  
I wouldn't trade this life even if I could  
'Cause I got it good

I got it, I got it good  
Oh, I got it good  
I got it, I got it good

Yeah, nothing could ever  
Ever be better  
'Cause there ain't no thing  
No thing like the simple things

I got a good life  
Man, I love my wife  
And my two boys  
And the house that we call home (We call home)

And it might not seem like much to some  
But I tell you now it's all that I want  
I wouldn't trade this life even if I could  
'Cause I got it good (I got it, I got it good)

Oh, I got it good (I got it, I got it good)  
'Cause I got it good (I got it, I got it good)  
I got it good (I got it, I got it good)

Yeah, I got it good
