HELL BOY

James Johnston

Hell boy, from the day you were born, you were born with a fire
You sure put your mama through hell, boy
I was just like you
Might not think it right now, but I was eighteen too

So, before I see those tail lights glow
Take this with you when you go

If you're gonna run
Run with everything you have
If you're gonna love
Love and never let off the gas
If you're gonna fight, fight for something
Don't give up on nothing
'Cause there ain't no turning back
So, when you go, give them hell, boy

Doesn't life change fast?
Ain't it crazy watching your own babies barefoot on the grass?
And I tell you: it won't be long 'til them boys are stealing your boots, and
 you'll be standing there in mine saying

If you're gonna run
Run with everything you have
If you're gonna love
Love and never let off the gas
If you're gonna fight, fight for something
Don't give up on nothing
'Cause there ain't no turning back
So, when you go, give them hell, boy

Give them hell, boy

Before I see those tail lights glow
Take this with you when you go

If you're gonna run
Run with everything you have
If you're gonna love

If you're gonna run
Run with everything you have
If you're gonna love
Love and never let off the gas
If you're gonna fight, fight for something
Don't give up on nothing
'Cause there ain't no turning back
So, when you go
I just want you to know
Give them hell, boy

Give them hell, boy
