

SMALL TOWN

James Johnston

Backed up traffic on the highway
Going nowhere
I had to stay back and work late (and I'm over it)
Tried looking up but all I see
High rise staring down at me
Not a star in sight
So I'm just thinking

I'll head back to a small town
Home bound
Back to what I know
Back to a big sky
Low fi
That's where I'll go
There's always been a part of me
That never gave it up
So tonight it's time to turn this thing around (let's go)
Back to a small town
Small town
Small town yeah
Back to a small town
Small town
Small town yeah

Light disappears in the rear view
I'm moving on
I got my hands tapping on the dashboard
To a country song
And I can't get there not fast enough
So man I'm gonna tear it up
Gonna drive it all night
Run until the sunrise
Only place I'll go

Is back to a small town
Home bound
Back to what I know
Back to a big sky
Low fi
That's where I'll go
Oh there's always been a part of me
That never gave it up
So tonight it's time to turn this thing around yeah
Back to a small town
Small town
Small town yeah
Back to a small town
Small town
Small town yeah

(Small town)
(Small town)
(Small town yeah)
(Small town)
(Small town)
(Small town yeah)

Ah get the bonfire ready
Get the beers in the Yeti
'Cause baby I'm on my way

Back to a small town
Home bound
Back to what I know
Back to a big sky
Little low fi
That's where I'll go
Oh there's always been a part of me
That never gave it up
So tonight it's time to turn this thing around yeah
Back to a small town
Small town
Small town yeah
Right back to a small town
Small town
Small town yeah yeah yeah

(Small town)
(Small town)
(Small town yeah)
Oh right back to a
(Small town)
(Small town)
Small town yeah
