

SOME THINGS NEVER CHANGE

James Johnston

Sometimes it feels like, life never slows down
Till I see them stars out, rolling in that town
Them potholes still need fixing, for sale sign still in that yard
But as soon as I step foot in to that bar

Damn it's good to see you brother
Man it's been forever
We got some catching up to do

So bartender (hey) pour us another
The bands back together
This stools been waiting here for you

Now sitting here, with a cold beer
And an old friend it's a good thing
Some things never change

Are you in town long, or just passing through
Where's all that time gone, since I last saw you
Saw your sisters got three kids and how's your mum and dad
Sounds like you've been doing well so cheers to that

Damn it's good to SEE you brother
Man it's been forever
We got catching up to do

So bartender (hey) pour us another
The bands back together
This stools been waiting here for you

Sitting here, with a cold beer
And an old friend it's a good thing
Some things never change

Yeah we're all getting older
But still feels the same
Yeah it's nice to know
Some things never change

Damn it's good to see you brother
Man it's been forever
We got some catching up to do

So bartender (hey) pour us another
The bands back together
This stools been waiting here for you

Now sitting here, with a cold beer
And an old friend it's a good thing
Some things never change
Some things never change
Some things never change

Yeah it's nice to know
Some things never change
